

If you're going to save,
then do it in style

The same high quality, but at an incredibly
low price: OSRAM DULUX® TABLE 2-S 11 W

SEE THE WORLD IN A NEW LIGHT

A brilliant example of economy and functional design

Good light is a motivator

Workplace designers are focussing more and more on creating an atmosphere in which employees feel good. This atmosphere depends to a large extent on the right lighting, and this in turn is determined by a number of factors. These include good uniform illumination and different ways of adjusting the amount of light to suit individual requirements. In addition to these functional and ergonomic properties, good luminaire design helps to create the best conditions for stress-free working. With its clear and elegant lines, the OSRAM DULUX® TABLE 2-S 11 W is not just for the boss's desk, it'll look good in any stylish office.

Flexibility opens up new perspectives

The design of the OSRAM DULUX® TABLE 2-S 11 W is characterised by its hinge mechanism. This allows the arm to be moved to any position and held firmly in place – without the usual external springs or adjusting screws. This sophisticated system makes the light easy to adjust to precisely the right angle. There is also a great deal of freedom in where this desk light can be placed. It is available with either a base or a clamp so it can be placed wherever bright light is needed for reading and working. The sleek design of the desk light is enhanced by the long elegant head that continues the lines of the arm. This is made possible by the low-profile design of the OSRAM DULUX® S 11 W energy-saving lamp.

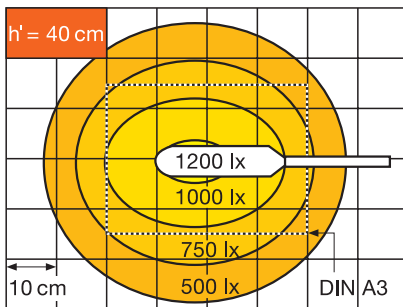

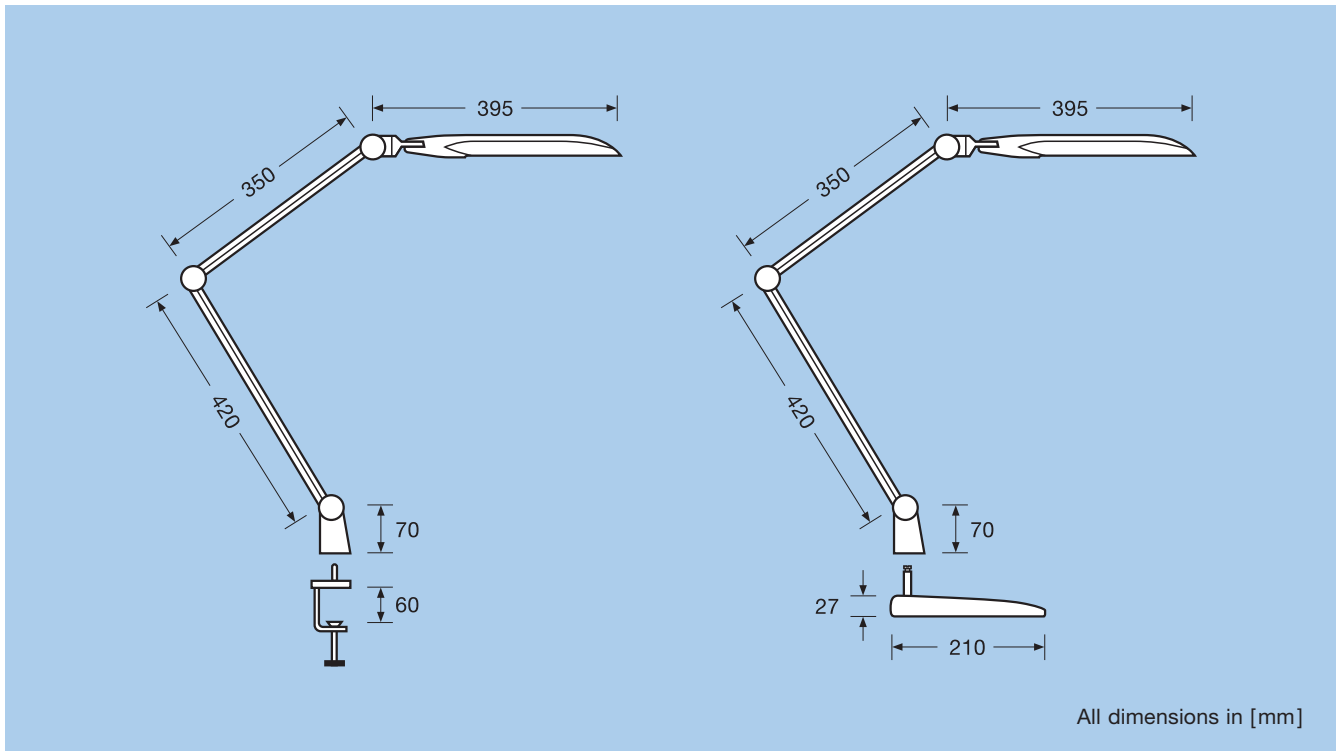

A comfortable way to reduce costs

Cost is an important factor in both the private and commercial sectors. A direct comparison shows the strengths of the OSRAM DULUX® TABLE 2-S 11 W. At just 11 W it is as bright as a normal light fitted with an ordinary 75 W light bulb. The reflector head is designed to produce uniform focussed light. And what's even better is that the lamp will not need replacing for a full 8,000 hours of operation.

Technical data

OSRAM DULUX® Table 2-S 11 W

OSRAM DULUX® TABLE 2-S 11 W	Clamp	Base
Product number	73062	73062-47
